# Dura Coil

Dura Coil is specially designed to provide more support and offers a firm edge with 4 different product types. Boyçelik successfully developed Dura Coil with greater support resilience than traditional foam cover on the edges. Enjoy flawless sleep joy by sleeping on a sleep surface that conforms to your body shape and responds to your weight even on the edges of the spring unit. Every type of Dura Coil springs have flexible edges and allowing for natural movement that lets your muscles relax. Double side use caters to your comfort preference with firmer edges. Dura Coils can be optimized with fit pocket, flexifirm, octo etc.
